

Scholar Allyship with and for the Undocumented Community

SEPTEMBER 17, 2018

Sayil Camacho

In September, Tennessee SSN's postdoctoral fellow Sayil Camacho hosted a webinar about how the scholarly community can better support undocumented students.

The **Scholar Allyship with and for the Undocumented Community** webinar sought to inform scholars, policymakers, and other stakeholders about the unique needs of the undocumented student community. The webinar reviewed the significance of allyship and how participants can spark and support change within and beyond the academy.

You can view the recording of the webinar below.
