SSN Releases 2022-23 Annual Report

NOVEMBER 15, 2023

Paola Maynard-Moll

After a few years of pandemic-related hiatus from publishing annual reports, the Scholars Strategy Network has returned to its end-of-year practice of review and reflection. This summary of the last academic year showcases how researchers can improve people's lives by engaging in the policy-making process.

SSN invites you to read about the powerful results of our network's sustained collaborations across campuses, disciplines, and communities. And please share the report widely, so others can see how research can improve policy and strengthen democracy.
